

WESTERN COLLABORATIVE CONSERVATION NETWORK

Presenter Guide: Institutionalizing Collaborative Problem-Solving

Western Collaborative Conservation Network- Public Policy Working Group

For a 45-minute presentation:

Presenters will present ALL slides for an approximately 45-minute presentation. This presentation will allow presenters to dive into all the details of the white paper, focusing in on the more detailed aspects of both the issues as well as the recommendations.

For a 30-minute presentation:

Presenters will present most of the slides EXCEPT for those slides that focus on the individual aspects of each issue (slides 5, 8, 11, 14, and 17). This presentation will still allow presenters to introduce the issues, but more time will be spent on the details of the “action items” and recommendations.

For a 10–15-minute presentation:

Presenters will give a brief introduction to both the overarching issues and recommendations without diving into the details of either. For this short presentation, presenters will ONLY present slides 1,2,3,4, 6, 9, 12, 15, 18, and 20.

**note: these times are estimated and have not been tested.
