

## BECOME A SPONSOR FOR OUR 2026 SUMMIT

The annual Colorado Forest Collaboratives Summit, hosted by the Colorado Forest Collaboratives Network, will gather collaborative leaders and partners from across the state to connect, share stories, and generate innovative ideas together. Your sponsorship will support Summit and the Colorado Forest Collaboratives Network. Sponsorships may go toward providing financial support for members of place-based forest collaboratives to attend the event; scholarships for students to attend Summit; putting on trainings and field trips; food and drink to fuel networking; and other event expenses! Your donation will positively impact place-based forest collaboratives in Colorado by connecting them to information, resources, and each other, and by telling their stories to make their value and needs understood.
